Policy development and review

MCM Medical's policies are established by our senior leadership team, based on advice from HR professionals, industry best practice and legal advice, and in consultation with our regulatory bodies. We review our policies annually or as needed to adapt to changes.

Our Processes for Managing Risk

To assess the risk of modern slavery, we use the following processes with our suppliers. We conduct audits before entering a commercial relationship with any business where there is the potential for risk. These audited businesses form the basis of our preferred supplier list.

After due consideration, we have not identified any significant risks of modern slavery, forced labour, or human trafficking in our supply chain. However, we continue to be alert to the potential for problems.

Additionally, we have taken the following steps to minimise the possibility of any problems:

- We reserve the right to conduct spot-checks of the businesses who supply us, to investigate any complaints.
- Only senior members of staff who have undergone appropriate training for assessing modern slavery risks in the supply chain are authorised to sign contracts and establish commercial relationships in any area where we have identified the potential for risk.
- We ensure that all our suppliers are members of appropriate industry bodies and working groups.
- Our staff are encouraged to bring any concerns they have to the attention of management.

Our Performance

As part of monitoring the performance of MCM Medical, we track the following general key performance indicators:

- Usage of Umbrella Company solutions by temporary workers
- The number of referrals from a single source (business or personal)
- Requests for specific staff from a single authority/healthcare body

Based on the potential risks we have identified, we have also established the following key performance indicators, which are regularly assessed by our senior leadership team:

- The percentage of suppliers who sign up to an appropriate code / provide their own modern slavery statements
- The percentage of workers supplied from audited jobs boards
- The effectiveness of enforcement against suppliers who breach policies
- The amount of time spent on audits, re-audits, spot checks, and related due diligence
- The level of modern slavery training and awareness amongst our staff

We carefully consider our indicators, to ensure that we do not put undue pressure on our suppliers that might increase the potential for risk.

Our Training

All of our staff receive training and support that is appropriate to their role. In particular:

- All of our staff receive awareness-raising information around issues involving modern slavery and human trafficking, so that they can bring any concerns they have to the attention of management.

As part of this, our staff are encouraged to discuss any concerns that they have. Training is refreshed regularly.
